

WALK-INS

CORRECTIONAL

FEEL CONFIDENT WITH EXTRA SECURITY.

Safety and security are extremely critical elements in the correctional foodservice field. That's why American Panel offers an array of time-tested features to ensure controlled access in these high-risk environments, while still delivering the quality and functionality our customers expect.

Our prison safety packages include tamper-proof screws, screened enclosures, door locking assemblies and around-the-clock monitoring systems. In addition, we manufacture our walk-ins to virtually any size or shape to utilize valuable floor space in these often crowded facilities.

From federal and state institutions to local jails, American Panel cold storage solutions deliver the ability to serve populations of any size while guaranteeing security at all times.

A HISTORY OF GETTING IT RIGHT.

American Panel walk-ins have long been recognized for their reliable performance, lasting durability and exceptional value. Each cooler, freezer and refrigerated building is consistently delivered in spec, on schedule and within budget.

To ensure product quality, walk-ins are designed with the help of our experienced sales and engineering team. Our entire production staff is dedicated to zero-defect manufacturing throughout the facility, and every unit is pre-assembled in its entirety at the factory before shipping. This extra step guarantees that your system will function properly at your site, every time.

Count on the experience and craftsmanship of American Panel to get it right on your next project. You'll feel the quality the moment you walk in.

A NAME YOU CAN TRUST.

Since our founding in 1963, customers have relied on American Panel for our friendly and efficient customer service, thoughtful product design and superior craftsmanship. Our consistent, fair and honest way of doing business sets the benchmark for the industry today.

There's no doubt that foodservice operators within the correctional field are faced with many unique challenges. While ensuring food quality, you must also protect against food theft and the vandalism of your valuable equipment. This is where we put our manufacturing experience to work for you. No matter the specific demands of your facility, our team will design and build the perfect unit to fit your needs.

... Available in standard sizes or custom configurations with a full complement of application-specific accessories

... 4"-thick foamed-in-place urethane construction provides superior insulating values, structural rigidity and total compliance with all nationally recognized building codes

MAKE AMERICAN PANEL QUALITY YOUR VERY OWN.

Every walk-in unit we manufacture is built to spec using superior materials, and is available with a wide selection of door locations and overall sizes. Within your fully custom configuration, you can choose from a variety of features and accessories that suit your specific needs. When your walk-in is complete, you'll have the perfect balance of efficient insulation, cost-saving operation and maximized capacity.

At American Panel, we're not just committed to building the best walk-in on the market. We're driven to build the best walk-in for you.

... *Take a look at what makes American Panel a true leader in the industry.*

... Metal finishes, available in a wide variety of easy-to-clean colors and textures, provide for an attractive appearance and ultimate durability

DEPENDABILITY. AT THE HEART OF EVERY WALK-IN WE BUILD.

American Panel's complete line of energy-efficient refrigeration equipment is designed for easy installation and reliable performance. Capacities for each system are adjusted for specific ambient temperature, altitude and product load. Plus, our indoor or outdoor units are supplied with a wide selection of site-specific controls and accessories, and come standard with a five-year compressor warranty.

... Fiberglass reinforced polymer (FRP) door and frame perimeter is corrosion-proof, impact-resistant and will not absorb moisture

... Standard on every unit, our multi-functional and fully programmable walk-in monitoring system helps safeguard your products while controlling energy consumption

WALK-INS

ENVIRONMENTALLY FRIENDLY.

At American Panel, we are proud of our commitment to environmental sustainability. Through partnerships established with our valued customers and vendors, we will continually strive to manufacture products that comply with state and federal environmental standards, minimize environmental impact and conserve energy. Through pioneering advances in insulation technology, the utilization of more energy-efficient refrigeration components and effective waste management, we will remain dedicated to making responsible manufacturing a top priority.
