

Project Name: _____

Item #: _____

Quantity: _____

Type: Modular Blast Chiller/Shock Freezer
Model: AP20BCF-1T

Blast Chiller/Shock Freezer (Modular) - AP20BCF-1T

Standard Features

PERFORMANCE:

- Blast chilling (soft or hard) lowers the food core temperature from 160°F to 38°F within 90 minutes.
- Shock freezing lowers the food core temperature from 160°F to 0°F within 4 hours.
- *Chilling times will vary somewhat, depending on the food quantity, initial temperature, density, moisture content, specific heat, and type of container.*
- The airflow has a high velocity, indirect pattern designed to cool all levels at identical rates.
- Time/temperature chilling rates meet or exceed all FDA, NSF, and state regulations.

TOUCHSCREEN CONTROLS:

- 7" glove-safe capacitive touchscreen
- Easily readable from across the kitchen
- User friendly interface and quick access to all functions
- Quick-start button for one touch operation
- Capable of automated defrost and sanitation cycles
- HACCP logger, data download via optional Wifi card or USB port
- Available cycles - Soft Chill, Hard Chill, Shock Freeze, Quick Start
- One core temperature probe is provided

ASSEMBLY:

- Unit manufactured using cam-lock insulated panels that are sized for easy assembly and ingress
- Internal electrical connections done via quick connect male-female connectors to minimize field wiring

CABINET CONSTRUCTION:

- Constructed of polished type 304 stainless steel,
- 4" of CFC-free, high density polyurethane insulation.
- Fully rounded interior corners
- Removable magnetic door gasket.
- The cabinet floor is a 7/8" thick insulated panel with NSF cove
- Integral 2" long ramp
- Clearance: 15" at the top cabinet for service. 30.5" at the front for door opening.

REFRIGERATION SYSTEM:

- Refrigeration system is complete with all components including controls, evaporator, TXV and solenoid valves, and blower system
- E-coated (electro-deposition coated) multiple circuits evaporator designed specifically for blast chilling operation
- Wash-down type motorized impeller fans with sealed ball bearing and overload protection
- Hinged swing out vent panel for easy evaporator cleaning

Overview: American Panel's modular series of blast chillers and shock freezers make site restrictions a thing of the past. These units are assembled in the field, the same way a typical walk-in is erected. No more wondering how you're going to get that large piece of equipment through the door. The modular series also features a consolidated evaporator fan assembly. This places all of the components within the cabinet on one side, which greatly reduces the overall footprint of the unit. American Panel quality and precision in a flexible format to fit your needs. 7" glove safe capacitive touchscreen control allows for simple 3 step control, or use the customizable quick-start button for one touch operation.

Capacity

One mobile rack (not included), maximum dimensions of 26"W x 32"D x 73.5"H.

Product Yield

200 lbs. - 160°F - 38°F in 90 minutes

230 lbs. - 160°F - 38°F in 120 minutes

120 lbs. - 160°F - 0°F in 240 minutes

Warranty

3 year parts & labor standard warranty.

Warranty excludes food probes.

The compressor only is covered for an additional period of two years, as a part only, no labor.

Type: Modular Blast Chiller/Shock Freezer

Model: AP20BCF-1T

Dimensions

INSTALLATION: A detailed installation manual is provided. It must be carefully followed to ensure proper operation and to protect your rights under the warranty.

Utility Specifications

	Electrical							Refrigeration Connections		Required Condensing Unit		
Model	V	Hz	PH	A	MCA	MOPD	Plug	Liquid Line	Suction Line	Type	Ref	BTU/HR*
AP20BCF-1T	208	60	1	8.2	15	15	Direct	1/2"	1 1/8"	Med.Temp. 40° F - -10° F	R404A	28,000

* - Rating at 14°F SST and 105°F cond. temp.

Controller

Soft Chilling: The air temperature is held in the range of 28°F to 35°F, the cycle is completed when the food core temperature reaches 38°F.

Hard Chilling: The air temperature is lowered to and held within a range of 10°F to 20°F. When the food core temperature reaches 60°F, the air temperature rises to a range of 28°F to 35°F. The chilling cycle is completed when the food core temperature reaches 38°F.

Shock Freeze: The air temperature is lowered to and held within a range of -25°F and -15°F. The freezing cycle is completed when the food core temperature reaches 0°F.

Quick Start: Programmable single touch button to start a cycle.

ADDITIONAL FUNCTIONS:

Holding: At the end of any cycle, the unit will automatically switch to a holding mode.

Defrost: A heated defrost cycle is included.

Options and Accessories

- Cabinet Sanitation:** The ozone and PhotoPlasma generator sanitizes all metal surfaces within the cabinet in a preset time of 30 minutes.
- USB HACCP Interface:** Use a standard USB thumb drive to easily download HACCP data. The information recorded includes date, time, cycle identification, recipe name, and product core temperature at prescribed intervals.
- Wi-Fi Connectivity:** Supported functions include peer-to-peer connectivity, remote monitoring over the local network, HACCP data download and alarm notifications via e-mail.
- 2" or 4" Insulated Floor Panels:** Allow for height increase to detail shown above.
- Remote Refrigeration:** RCU3BCF, available in air cooled and water cooled configuration (5 year compressor, 1 year parts warranty provided).
- Prison Security Package**
- Extra Food Probes:** One probe is standard, up to three additional food probes can be provided.
- Mobile Racks:** Model APR13-26 will accommodate 26 full size steam table pans (12"x20"x2 1/2") or 13 full size sheet pans (18"x26").
- Reversed Cabinet:** The entire assembly is manufactured so that it is a mirror image of the cabinet shown above.
- Second Door:** For pass-thru operation (increases depth by 2")
- Alternate refrigerant configuration available**
- Right hand hinge available**
- Food Thaw system function**
