

Project Name:	
Item #:	
Quantity:	

Type: Blast Chiller/Shock Freezer (Roll-in Remote) Model: AP20BCF200-2

Standard Features

PERFORMANCE:

- Blast chilling (soft or hard) lowers the food core temperature from 160°F to 38°F within 90 minutes.
- Shock freezing lowers the food core temperature from 160°F to 0°F within 4 hours.
- Chilling times will vary somewhat, depending on the food quantity, initial temperature, density, moisture content, specific heat, and type of container.
- The airflow has a high velocity, indirect pattern designed to cool all levels at
- Time/temperature chilling rates meet or exceed all FDA, NSF, and state regulations.

TOUCHSCREEN CONTROLS:

- 7" glove-safe capacitive touchscreen
- · Easily readable from across the kitchen
- · User friendly interface and quick access to all functions
- · Quick-start button for one touch operation
- · Capable of automated defrost and sanitation cycles
- · HACCP logger, data download via optional Wifi card or USB port
- · Available cycles Soft Chill, Hard Chill, Shock Freeze, Quick Start
- · One core temperature probe is provided

CABINET CONSTRUCTION:

- · Constructed of polished type 304 stainless steel,
- 2 3/4" of CFC-free, high density polyurethane insulation.
- · Fully rounded interior bottom
- · Removable magnetic door gasket.
- · Door is hinged on the operator's left
- · Integral 2" long ramp for roll-in operation
- Clearance: 15" at the top cabinet for service. 31" at the front for door opening. 4" on either side for door opening and service.

REFRIGERATION SYSTEM:

- · Refrigeration system is complete with all components including controls, evaporator, TXV and solenoid valves, and blower system
- E-coated (electro-deposition coated) multiple circuits evaporator designed specifically for blast chilling operation
- · Wash-down type motorized impeller fans with sealed ball bearing and overload protection
- · Hinged swing out vent panel for easy evaporator cleaning

Overview: American Panel's HURRiCHiLL series of blast chillers and shock freezers are the perfect product for all of your chilling and freezing needs. The HURRiCHiLL series of chillers also features a consolidated evaporator fan assembly. This places all of the components within the cabinet, which greatly reduces the overall footprint of the unit. American Panel quality and precision in a flexible format to fit your needs.

Capacity

One mobile rack (not included), maximum dimensions of 26"W x 32"D x 73.5"H.

Product Yield

200 lbs. - 160°F - 38°F in 90 minutes

240 lbs. - 160°F - 38°F in 120 minutes

120 lbs. - 160°F - 0°F in 240 minutes

Warranty

3 year parts & labor standard warranty. Warranty excludes food probes.

The compressor only is covered for an additional period of two years, as a part only, no labor.

Certifications

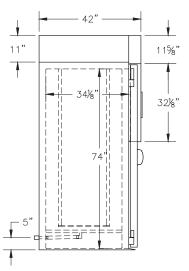

Type: Blast Chiller/Shock Freezer (Roll-in Remote) **Model:** AP20BCF200-2

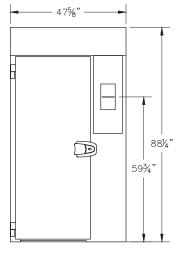

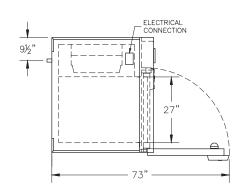

Dimensions

INSTALLATION: A detailed installation manual is provided. It must be carefully followed to ensure proper operation and to protect your rights under the warranty.

Controller

Soft Chilling: The air temperature is held in the range of 28°F to 35°F, the cycle is completed when the food core temperature reaches 38°F.

Hard Chilling: The air temperature is lowered to and held within a range of 10°F to 20°F. When the food core temperature reaches 60°F, the air temperature rises to a range of 28°F to 35°F. The chilling cycle is completed when the food core temperature reaches 38°F.

Shock Freeze: The air temperature is lowered to and held within a range of -25°F and -15°F. The freezing cycle is completed when the food core temperature reaches 0°F.

Quick Start: Programmable single touch button to start a cycle.

ADDITIONAL FUNCTIONS:

Holding: At the end of any cycle, the unit will automatically switch to a holding mode.

Defrost: A heated defrost cycle is included.

Options and Accessories

- Cabinet Sanitation: The ozone and PhotoPlasma generator sanitizes all metal surfaces within the cabinet in a preset time of 30 minutes.
- USB HACCP Interface: Use a standard USB thumb drive to easily download HACCP data. The information recorded includes date, time, cycle identification, recipe name, and product core temperature at prescribed intervals.
- Wi-Fi Connectivity: Supported functions include peer-to-peer connectivity, remote monitoring over the local network, HACCP data download and alarm notifications via e-mail.
- Remote Refrigeration: RCU3BCF, available in air cooled and water cooled configuration (5 year compressor, 1 year parts warranty provided).
- Extra Food Probes: One probe is standard, up to three additional food probes can be provided.

- Mobile Racks: Model APR13-26 will accommodate 26 full size steam table pans (12"x20"x2 1/2") or 13 full size sheet pans (18"x26").
- · Food Thaw system function
- Probe holder for liquids: The probe support will clip onto the edge of a standard steam table pan.
- Bumper Rail: 2" wide bumper rail mounted on either side of the unit. the center line of the bumper rail will be located at 36" AFF.
- Alternate R448A refrigerant configuration available
- Reverse cabinet (RHH)
